

Deliver reports and images of total screening exams
to smart phones of patients

HeSeL MORE

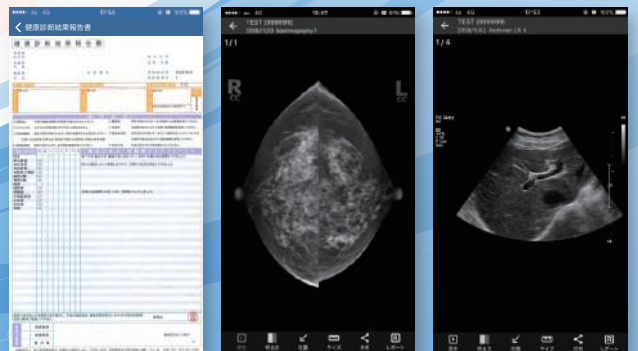

Mobile Report

New solution for hospitals operating total screening exams

Currently, hospitals send paper reports using the mail delivery via the post office. It costs a lot for color paper printing, manual processes and labor fees etc. Human errors can occur occasionally, than makes patient upset.

It is difficult for patients to manage paper reports and carry them when necessary. Using HeSeL MORE as peron-owned health record, hospitals send medical records (text, pdf, dicom etc) to patients mobile phones so that patients can manage them on mobile devices at once. Hospitals can get merits of cost saving, productivity and fast reporting to patients as well as simple and secured workflow.
